

Exciting Online Banking Upgrade!

We'll launch a new and enhanced platform on January 23, 2024.

We're excited to introduce many new benefits with our enhanced Online Banking. These include a streamlined interface, more time-saving features, and powerful account management tools.

Important:

- **First Online Banking Login:** The first time you log in (on or after January 23, 2024), you'll be asked to accept the terms and conditions.
- **Phone Number and Email Update:** When you log in the first time, you'll be asked to enter a valid phone number (preferably your cell phone) and a current email address.

It's the Start of Something Great!

In addition to our fresh look, you'll appreciate the improved ease and convenience of performing everyday functions. Our new Online Banking platform will offer:

- **More Control of Your Money.** Our new system offers personalized alerts, enabling you to receive notifications based on account activity. This is convenient for many reasons, for example, if you're wondering whether a check has cleared, or your balance has reached a certain level.
- **Better Communication.** If you have a question about a specific transaction, we'll offer more secure communication with our "Message Center" during normal business hours.
- **No Changes to Bill Pay.** You can continue to pay bills without missing a beat. Payee addresses and account information will automatically transition into the new system.

We look forward to bringing you an enhanced Online Banking experience and appreciate your patience during the transition.
